Art Unit: 1745

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 10, 12-15, 17-20 and 22-24 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Tamaki *et al.* (EP 762,522), for reasons of record.

Claims 11, 16 and 21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. These claims recite graphite that contains 0.01 to 1.0 weight percent boron, and has a d_{002} of 3.3650 Å or less. The prior art to Tamaki *et al.* does not disclose graphite having both these characteristics.

Applicant's arguments filed 01 November 2006 have been fully considered but they are not persuasive.

Applicant argues that Tamaki *et al.* suggest that carbon with a boron content of 0.1 to 2.0 percent does not result in beneficial effects, whereas applicants have uniquely discovered the properties of the present graphite and desirable capacity and efficiency. This is not persuasive, because examples 2 and 3 of Tamaki *et al.* recite 4,000 and 5,000 ppm boron, respectively, which would be 0.4 and 0.5 weight percent. See Table 1 on page 11. These values fall within applicant's claimed range, and thus would constitute anticipation.

Art Unit: 1745

The Terminal Disclaimer of 07 November 2006 is sufficient to remove the previous rejection under Obviousness-Type Double Patenting.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
